TO TAX-PAYERS.—The tax-books of the city of Ironton are now in the hands of the collector, and tax-payers are hereby notified to "come down" with their quota of dollars immediately, if not sooner. There are some delinquent taxes which the parties interested had best settle ere it is too late. A number of polls still remain unpaid. Pay up, tax-payers! Now is the accepted and acceptable time.

Prof. Ira More, of San Francisco, is apprehensive that the dread disease, leprosy, which, wherever it prevails in certain parts of the Old World, is attended by shocking unsightliness and much misery, will at no distant time become established in this country. He fears that it will be introduced by the Chinese. The disease prevails chiefly in Syria and portions of Central Asia. From there it was brought into Europe by the Crusaders, and is now a recognized malady in Norway, Iceland and in parts of Southern Europe. It prevails in Mexico, too, and it has even managed to effect a lodgment in one parish of Louisiana, where it was discovered two years ago.

The Gulon steamship Nevada has just brought over 922 Mormon converts and 33 missionaries. This is the largest contingent ever received, except the one which came in 1862. These people are said to be all young, thrifty-looking and comfortably provided with luggage and clothing. There were 659 Scandinavians, 72 Hollanders and 191 from the British domain.

The total ascertained immigration across seas from Germany during the eleven years ending with 1881, was 806,698. In 1871 it was 75,912, but rose to 125,630 in 1872, and 103,638 in 1873; then dropped to 45,112 in 1874, and kept on declining until 1880, when it bounded from 43,327 to 106,190, and to 210,537 in 1881.

PAINTING.—Having engaged the services of a first-class painter and grainer, I am now prepared to do any work in the line of painting, graining, paper-hanging, or calcimining.
